FY25 Budget Narrative - Amendment #1

Budget Amendment Goals:

- Create positive net operating surplus greater than or equal to the approved May budget
- Align budget to reflect fall count day enrollment
- Attend to capital issues and building concerns from capital project planning
- \$8,000,000 in cash reserves by FY30

Overall Budget Summary ~ operating surplus and cash impact

- The budget amendment above creates an operating surplus of \$103,425.42
 - This is \$66,000 more than the approved 24-25 budget projected.
- Cash reserves from FY24 ended substantially higher than projected, allowing us to fund additional capital projects and still keep our projected cash reserves on track to exceed FY30 targets.
- Despite slightly reduced enrollment, this budget allows for consistent programming and staffing for the 24-25 school year.

Long-Term Cash Position (Cash on Hand)

FY24 budget planned for \$6.6 mil in cash reserves

- Actual from FY24 was \$8.1 mil
- Exceeded target as a result of large grant awards and tight fiscal management of capital projects.

With the additional cash reserves, we can accommodate almost \$1.5M in needed upgrades, and still maintain a cash reserve balance of \$7.3M at the end of FY25 - approx. \$700K ahead of projections.

Additional Notes:

 We are forecasting a Spring count of 1037 - this accounts for a 2% melt from fall to spring
